

CBRF Certification Courses

Effective April 1, 2010, the Department of Health Services began implementation of its changes to the requirements for training and registry services for CBRFs. Among the changes are new requirements for both instructors and students of the four department-approved face-to-face training topics, outlined in DHS 83.20: Fire Safety, First Aid & Choking, Medication Administration, and Standard Precautions.

Changes include:

- A public access registry of CBRF staff, who have successfully completed required courses is available to providers, survey staff and other interested parties. This registry is the sole verification of classes completed on or after April 1, 2010.
- Curriculum for all four topics has been standardized and must be taught beginning April 1, 2010.

Blackhawk Technical College is now offering three new/revised courses to meet your training requirements as a Community-Based Residential Facility (CBRF):

◆ Fire Safety

◆ Medication Administration

◆ Standard Precautions

Fire Safety, Standard Precautions and Medication Administration training will now be delivered in seminar format.

- Classes will be scheduled in advance and participants will be required to register and pay for the class prior to the class date.
- Each class includes classroom instruction and reference material, followed by an open book test.
- Upon successful completion, the participant must remit a check or money order only for \$15.00 made payable to UW-Oshkosh CCDET to have their name posted on the state registry. Blackhawk instructors will then forward the required fees and documentation to UW-Oshkosh for processing.
- The training table on page 2 indicates the dates, times, locations, and Blackhawk Technical College fees for the scheduled classes. *(These fees do not include the \$15 state registry fee. **The registry fee has been reduced to \$15 per participant for all classes.**)*
- These classes are delivered in seminar format by Blackhawk's DHS certified instructors:
 - Sue Anema – Standard Precautions & Medication Administration
 - Loren Lippincott – Fire Safety
- First Aid & Choking is not currently available at Blackhawk Technical College. Contact South Central Wisconsin Red Cross at (608) 754-4497 for information on scheduled classes.
