## Independent Auditor's Report

District Board  
Blackhawk Technical College District  
Janesville, Wisconsin

### ***Report on the Audit of the Financial Statements***

#### ***Opinions***

We have audited the accompanying financial statements of the business-type activities, the discretely presented component unit, and the aggregate remaining fund information (the "financial Statements") of Blackhawk Technical College District (the "College"), as of and for the years ended June 30, 2025 and 2024, and the related notes to the financial statements, which collectively comprise the College's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, the discretely presented component unit, and the aggregate remaining fund information of Blackhawk Technical College District as of June 30, 2025 and 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America ("GAAP").

#### ***Basis for Opinions***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS") and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America. The financial statements of the Blackhawk Technical College Foundation, Inc., a discretely presented component unit, were not audited in accordance with *Government Auditing Standards*. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Blackhawk Technical College District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### ***Emphasis of Matter***

##### ***Change in Accounting Principle***

We draw attention to Note 1 of the financial statements, in 2025, the College adopted new accounting guidance, GASB Statement No. 101, Compensated Absences. Our opinions are not modified with respect to this matter.

## ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Blackhawk Technical College District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Blackhawk Technical College District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Blackhawk Technical College District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## ***Other Matters***

### ***Required Supplementary Information***

GAAP requires that a management's discussion and analysis, the schedule of changes in net OPEB liability and related ratios, the schedule of employer contributions - OPEB, the schedule of investment returns, the schedules of employer's proportionate share of the net pension liability (asset) and employer contributions - Wisconsin Retirement System, and the schedules of employer's proportionate share of the net OPEB liability and employer contributions - Local Retiree Life Insurance Fund be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary Information***

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise the College's basic financial statements. The budgetary comparison schedules listed in the table of contents as supplementary information, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audits of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

### ***Other Information***

Management is responsible for the other information which comprises the Statistical Section listed in the accompanying table of contents. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2025 on our consideration of the College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Blackhawk Technical College District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control over financial reporting and compliance.

## **Management's Discussion and Analysis**

## **MANAGEMENT'S DISCUSSION AND ANALYSIS** **(Unaudited)**

The purpose of Management's Discussion and Analysis (MD&A) is to provide users of the basic financial statements with a narrative introduction, overview, and analysis of those statements. The MD&A provides summary level financial information; therefore, it should be read in conjunction with the accompanying financial statements.

### **Basic Financial Statements**

This discussion and analysis is intended to serve as an introduction to Blackhawk Technical College District's (the "College") basic financial statements. The statements are comprised of two components: government-wide financial statements and notes to financial statements.

**Government-wide financial statements** – the government-wide financial statements are designed to provide readers with a broad overview of the College's finances, in a manner similar to a private sector business.

The *statement of net position* presents information on all of the College's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the College is improving or deteriorating. This statement is prepared under the accrual basis of accounting whereby revenues and assets are recognized when the service is provided and expenses and liabilities are recognized when others provide the service, regardless of when cash is exchanged.

The *statement of revenues, expenses and changes in net position* presents the revenues earned and expenses incurred during the year. Activities are reported as either operating or non-operating. As the College receives the majority of its revenues from the taxpayers and other government entities, the College will report an operating deficit or loss. Revenues received from taxpayers (tax levies) and from the state (state appropriations) are considered non-operating revenue, and reduce the operating deficit or loss. The utilization of capital assets is reflected in the financial statements as depreciation, which amortizes the cost of an asset over its expected useful life.

The *statement of cash flows* presents information related to cash inflows and outflows summarized by operating, noncapital, and investing activities. This statement is important in evaluating the College's ability to meet financial obligations as they mature.

**The notes to financial statements** provide additional information that is essential to a full understanding of the data provided in the government-wide financial statements. The notes to financial statements are located after the government-wide financial statements in this report.

**Fiscal Year 2025 Compared to 2024**

From 2024 to 2025, total assets increased by \$0.2 million, or 0.2%. Significant changes are as follows:

- ❖ Cash and cash equivalents decreased by \$3.1 million, or 11.5% due primarily to the completion of capital construction projects.
- ❖ Net capital and lease assets increased by \$4.4 million, or 5.0% due to capital asset additions net of disposals.
- ❖ Other assets decreased by \$1.1 million, or 7.9% due primarily to a decrease of \$1.4 million in other post-employment health benefit assets.

From 2024 to 2025, deferred outflows of resources decreased \$3.3 million, or 27.3%. This change is primarily due to:

- ❖ A \$3.4 million decrease in the College's proportionate share of the Wisconsin Retirement System collective deferred outflows of resources for pension and life benefits. This decrease is attributed to actual versus expected experience, investment performance, and a change in assumptions.

From 2024 to 2025, total liabilities decreased \$4.1 million, or 5.3%. Significant changes are as follows:

- ❖ Current liabilities decreased \$2.7 million, or 16.7% primarily due to a decrease in accounts payable.
- ❖ Long term liabilities decreased \$1.4 million, or 2.3% due primarily to decreases of \$1.0 million in general obligation debt, \$0.4 million in subscription-based information technology arrangement liability payable.

From 2024 to 2025, deferred inflows of resources decreased \$2.6 million, or 16.7%. This is due to:

- ❖ A \$2.9 million decrease in the College's proportionate share of collective deferred inflows of resources in the Wisconsin Retirement System pension plan. Deferred inflows of resources will be applied to future periods and will be recognized as revenue at that time.

From 2024 to 2025, total net position increased by \$3.7 million or 7.0%. Significant changes are as follows:

- ❖ Net investment in capital assets increased \$4.7 million due to \$10.7 million in investments in capital assets, offset by \$6.2 million in depreciation.
- ❖ Net position restricted for other post-employment health benefits decreased \$1.4 million, which is the result of actuarial adjustments (actual versus expected experience, investment performance, and a change in assumptions).

### **Fiscal Year 2024 Compared to 2023**

From 2023 to 2024, total assets decreased by \$2.3 million, or 1.8%. Significant changes are as follows:

- ❖ Cash and cash equivalents decreased by \$17.6 million, or 39.4% due primarily to the completion of capital construction projects.
- ❖ Net capital and lease assets increased by \$14.5 million, or 20.0% due to capital asset additions net of disposals.
- ❖ Other assets increased by \$0.8 million, or 6.2% due primarily to an increase of \$0.8 million in other post-employment health benefit assets.

From 2023 to 2024, deferred outflows of resources decreased \$7.0 million, or 36.9%. This change is primarily due to:

- ❖ A \$6.25 million decrease in the College's proportionate share of the Wisconsin Retirement System collective deferred outflows of resources for pension and life benefits. This decrease is attributed to actual versus expected experience, investment performance, and a change in assumptions.

From 2023 to 2024, total liabilities decreased \$3.5 million, or 4.3%. Significant changes are as follows:

- ❖ Current liabilities increased \$2.1 million, or 10.9% primarily due to increases in accounts payable and accrued liabilities and in the current portion of long-term obligations over the prior year.
- ❖ Long term liabilities decreased \$5.7 million, or 8.4% due primarily to decreases of \$3.4 million in the Wisconsin Retirement System pension plan liability, \$1.4 million in general obligation debt, and \$1.4 million in lease liability payable due to termination of the lease at the Advanced Manufacturing Technology Center.

From 2023 to 2024, deferred inflows of resources decreased \$3.5 million, or 27.9%. This is due to:

- ❖ A \$3.03 million decrease in the College's proportionate share of collective deferred inflows of resources in the Wisconsin Retirement System pension plan. Deferred inflows of resources will be applied to future periods and will be recognized as revenue at that time.

From 2023 to 2024, total net position decreased by \$2.3 million or 4.2%. Significant changes are as follows:

- ❖ Net investment in capital assets increased \$0.2 million due to \$13.8 million in investments in capital assets, offset by \$5.1 million in depreciation and the disposal of \$8.6 million in assets from the closing of the Advanced Manufacturing and Training Center in Milton, WI.
- ❖ Net position restricted for other post-employment health benefits increased \$1.1 million, which is the result of actuarial adjustments (actual versus expected experience, investment performance, and a change in assumptions).
- ❖ Net position unrestricted decreased \$3.7 million due to a \$6.8 million investment in capital assets offset by net revenues over expenses.
- ❖

### **Condensed Comparative Data and Overall Analysis**

The following is a summary of the various components of the Statement of Revenues, Expenses and Changes in Net Position.

Operating revenues are the charges for services offered by the College:

	amounts shown in thousands			Increase or (Decrease)

### **Fiscal Year 2025 Compared to 2024**

During 2025, the College generated \$18.7 million in operating revenue. From 2024 to 2025, operating revenues increased \$3.1 million, or 19.7%. Significant changes are as follows:

- ❖ Student tuition and fees increased \$0.5 million or 7.3% due to enrollment growth and a 2.25% increase in tuition rate.
- ❖ Federal grant revenue increased \$1.0 million or 18.5% due primarily to an increase in financial aid provided to students.
- ❖ State grants increased \$1.9 million, or 198.6% primarily due to a \$1.7 million State of Wisconsin Oral Health Grant.

### **Fiscal Year 2024 Compared to 2023**

During 2024, the College generated \$15.6 million in operating revenue. From 2023 to 2024, operating revenues decreased \$8.5 million, or 35.1%. Significant changes are as follows:

- ❖ Institutional revenue decreased by \$6.7 million, or 68.6% mainly due to receiving a gift of \$6.8 million from the Blackhawk Technical College Foundation for construction of the new manufacturing building in the prior year.

- ❖ Federal grant revenue decreased \$2.1 million or 27.61% due primarily to the decrease in the higher education emergency relief funding (HEERF) for student aid from the prior year (\$2,820,630), offset by an increase in financial aid provided to students (\$754,640).
- ❖ Student tuition and fees increased \$377,164 or 6.5% due to enrollment growth and a 1.92% increase in tuition rate.
- ❖ State grants decreased \$39,759, or 4.0% primarily due to a decrease in Wisconsin Technical College System Board grant funding (\$29,178).

Operating expenses are costs related to the programs offered by the College:

#### Fiscal Year 2025 Compared to 2024

During 2025, total operating expenses increased by \$4.3 million, or 12.9% from the prior year. Significant changes are as follows:

- ❖ Instructional expenses increased \$3.1 or 17%, primarily due to increases in the actuarially determined in pension and other post-employment benefit expenses (\$0.6 million and \$1.0 million respectively) and personnel expenses (\$1.1 million).
- ❖ General institutional expenditures increased \$0.8 million or 13.0%, primarily due to increases in the actuarially determined in pension and other post-employment benefit expenses (\$0.2 million and \$0.3 million respectively) and personnel expenses (\$0.3 million).
- ❖ Student aid expenses increased \$0.7 million, or 23.4% primarily due to the increase in student financial aid awards resulting in increased dollars disbursed to students.

#### Fiscal Year 2024 Compared to 2023

During 2024, total operating expenses decreased by \$4.5 million, or 9.7% from the prior year. Significant changes are as follows:

- ❖ Instruction resources expenditures decreased \$1.2 million or 50.5%, primarily due to decreases in reclassification of capital purchases and encumbrances (\$0.5 million), and capital expenditures (\$0.5 million)
- ❖ Student services decreased \$1.5 million or 28.7%, primarily due to a decrease in HEERF emergency student aid disbursed (\$1.3 million).
- ❖ Physical plant expenses decreased \$1.2 million or 34.0%, mainly due to a net decrease of reclassification of capital purchases and encumbrances (\$2.8 million) and an increase in operational expenses (\$1.6 million).
- ❖ Student aid expenses increased \$0.6 million, or 29.6% primarily due to the increase in student financial aid awards resulting in increased dollars disbursed to students.

Non-operating revenues and expenses are revenue and expense items not directly related to providing instruction:

### Fiscal Year 2025 Compared to 2024

Net non-operating revenues (expenses) increased \$7.7 million, or 32.0% from the prior year resulting from a higher increase in non-operating expenses than non-operating revenues:

- ❖ Investment income decreased (\$0.7 million) due primarily to lower interest rates and lower capital reserve balances as major construction projects were completed.
- ❖ Loss on disposal of capital assets decreased \$7.8 million as prior year disposal of capital assets no longer in service was unusually high due to the closure of the Advanced Manufacturing Technology Center.

### Fiscal Year 2024 Compared to 2023

Net non-operating revenues (expenses) decreased \$6.5 million, or 21.4% from the prior year resulting from a higher increase in non-operating expenses than non-operating revenues:

- ❖ Property tax revenues increased \$0.8 million, or 4.7% due to increases in net new construction (\$0.4 million), and in debt service obligations due in calendar year 2024 (\$0.6 million). These increases were offset by a decrease in TIF funding in the District (\$0.2 million).
- ❖ Investment income increased \$0.5 million due to higher interest rates.
- ❖ Loss on disposal of capital assets increased \$7.8 due to the disposal of capital assets no longer in service, due to the closure of the Advanced Manufacturing Technology Center after moving the operations to the Innovative Manufacturing Education Center.

### **Capital Asset and Debt Administration**

The College's investment in capital assets includes land, land improvements, buildings and improvements, leasehold improvements, intangible assets (water main), equipment, and construction in progress. This investment as of June 30, 2025 and 2024, net of accumulated depreciation, amounted to \$88.7 million and \$83.9 million, respectively. Additional information on the College's capital assets can be found in Note 5 of the financial statements.

The College finances the majority of its capital assets through the issuance of debt. In November 2020, the District voters approved a capital referenda authorizing borrowing up to \$32.0 million to construct a comprehensive public safety and transportation training center on the College's Central Campus in Janesville. Construction was completed in 2025. The debt to fund the project was issued in three borrowings (\$7.5 million, \$5.0 million, and \$19.5 million) amortized over twenty-years from date of issuance. The College issued the first borrowing (\$7.5 million) in 2021 and the remaining borrowings (\$5.0 million and \$19.5 million) were completed in fiscal year 2022.

In 2025, the College incurred new debt in the amount of \$6.8 million for capital assets and facility improvements and retired debt in the amount of \$7.9 million for a net decrease of \$1.1 million in debt outstanding. Referenda debt will be retired in twenty years from date of issuance while all non-referenda general obligation debt outstanding at fiscal year-end will be retired in ten years.

As of June 30, 2025, the College had total general obligation debt outstanding of \$61.7 million. The balance on June 30, 2024 was \$62.7 million. The College continues to maintain a Moody's Investors Service Aa2 rating, and continues to meet all of its debt service requirements. Wisconsin state statutes limit the amount of aggregate and bonded indebtedness that the College can incur. The amount of debt outstanding falls well below these thresholds.

### **Requests for Information**

This financial report is designed to provide a general overview of the College's financial picture for those interested parties. ## **Note 1 – Summary of Significant Accounting Policies**

**Introduction:** Blackhawk Technical College District (the College) is organized under state legislation enacted in 1911 establishing vocational, technical, and adult education. The goals of the College are to train people for employment in a system flexible enough to permit adjustment to meet the needs of the community, with programs offered on a part-time, full-time, day and evening basis.

The geographic area of the College is comprised of most of Rock County and the majority of Green County in south central Wisconsin. There are 52 municipalities with an estimated population of 191,211 and 13 public school districts within the College's boundaries. The district contains 1,200 square miles and operates campuses located in the cities of Beloit, Janesville and Monroe as well as learning centers in the surrounding communities.

The governing body of the College is the District Board, which consists of nine members. The members are appointed to staggered three-year terms by the County Board chairpersons for Rock and Green counties, who meet once a year to appoint members to the three open seats. The District Board membership includes two employers, two employees, three additional members, one school district administrator and one elected official who holds a state or local office. The District Board powers are established under the provisions of Chapter 38 of the Wisconsin Statutes and include:

- Authority to borrow money and levy taxes;
- Budgetary authority; and
- Authority over other fiscal and general management of the College which includes, but is not limited to, the authority to execute contracts, to exercise control over facilities and properties, to determine the outcome or disposition of matters affecting the recipients of the services being provided, and to approve the hiring or retention of key management personnel who implement Board policy and directives.

The College is approved to offer 76 associate degree and technical diploma programs. These include 36 associate degree, 3 two-year technical diploma, 15 one-year technical diploma, 14 less-than-one-year technical diploma, and 8 apprenticeship programs. In addition, the College offers various advanced technical programs, basic skills education, and adult continuing education.

The accounting policies of the College conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to public colleges and universities as well as those prescribed by the Wisconsin Technical College System (WTCS). The College reports are based on all applicable Governmental Accounting Standards Board (GASB) pronouncements.

## **Note 1 – Summary of Significant Accounting Policies (continued)**

The following is a summary of the more significant policies.

Reporting Entity: In November, 2010, GASB issued Statement No. 61, *The Financial Reporting Entity: Omnibus*. This statement amends Statement No. 14, *The Financial Reporting Entity* and Statement No. 39, *Determining Whether Certain Organizations are Component Units* to provide additional guidance to determine whether certain organizations for which the District is not financially accountable should be reported as component units based on the nature and significance of their relationship with the College. The primary government is financially accountable if it appoints a voting majority of the organization's governing body, or if the organization is fiscally dependent on and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government.

Blackhawk Technical College Foundation, Inc. (Foundation) is a not-for-profit corporation whose purpose is to solicit, hold, manage, invest and expend endowment funds and other gifts, grants, and bequests exclusively for the maintenance and benefit of the College. The Foundation is managed by a Director and an independent board of directors and is not fiscally accountable to the College.

The Foundation's resources are significant to the College as a whole and to exclude would cause the College's financial statements to be incomplete. The Foundation has been reported as a discretely presented component unit in the College's financial statements.

The Foundation's financial statements can be obtained through the Blackhawk Technical College Foundation Inc., 6004 S. County Road G, Janesville, WI 53547-5009.

New Accounting Pronouncement: Management adopted new accounting guidance, GASB statement No.101, *Compensated Absences*. This statement was released in June 2022 and supersedes Statement No. 16, *Accounting for Compensated Absences*. GASB No. 101 is effective for fiscal years beginning after July 1, 2023. Beginning net position for the year ended June 30, 2024 was restated as a result of the implementation of this guidance, see Note 18.

Basis of Accounting and Financial Statement Presentation: For financial statement reporting purposes, the College is considered a special-purpose government engaged only in business-type activities. Accordingly, the basic financial statements of the College have been prepared on the accrual basis of accounting, whereby all revenues are recorded when earned, and all expenses are recorded when incurred. This basis of accounting also requires the College to record depreciation expense related to capital assets to spread the cost of these assets to the estimated period benefiting from them.

Operating revenues and expenses generally result from providing educational services or producing and delivering goods in connection with the College's ongoing operations. Amounts reported as operating revenues include (1) student tuition and fees, (2) charges to customers for goods or services provided, (3) state and federal operating grants, and (4) contracts with business and industry or school districts. Operating expenses include all instructional and administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

## **Note 1 – Summary of Significant Accounting Policies (continued)**

**Budgets and Budgetary Accounting:** The College's internal records are maintained on a fund basis as required by the WTCS. The College follows the procedures listed below in adopting the annual budgets for all governmental fund types that are legally required.

1. Property taxes are levied by the various taxing municipalities. The College records as revenue its share of the local tax in the year levied.
2. Public hearings are conducted on the proposed budget prior to District Board approval.
3. Prior to July 1, the budget is legally enacted through approval by the District Board.
4. Budget amendments during the year are legally authorized. Budget transfers (between funds and functional areas within funds) and changes in budgeted revenues and expenditures (appropriations) require approval by a vote of two-thirds of the entire membership of the District's Board and require publishing a Class 1 public notice in the College's official newspaper within ten days according to Wisconsin Statutes.
5. Management exercises control over budgeted expenditures by fund and function as presented in the accompanying basic financial statements. Expenditures may not exceed funds available or appropriated unless authorized by a resolution adopted by a vote of two-thirds of the District Board. Unused appropriations lapse at the end of each fiscal year.
6. Formal budgetary integration is employed as a planning device for all funds. The College adopts an annual operating budget that is prepared on a different basis from the basic financial statements, which are prepared in accordance with GAAP. The budget differs from GAAP by recognizing encumbrances as expenditures. Also, the budget does not incorporate changes related to GASB statements Nos. 33, 34, and 35.

**Use of Estimates:** In preparing basic financial statements in conformity with GAAP, the College is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the basic financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Cash and Cash Equivalents:** Cash includes amounts in petty cash, demand deposits, and other short-term interest-bearing deposits.

For purposes of the statement of cash flows, cash on hand, demand deposits with financial institutions, investments in the Local Government Investment Pool (LGIP), and other short-term investments with maturity dates of less than ninety days from when purchased are considered cash equivalents.

**Fair Value Measurements:** Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A three-tier hierarchy prioritizes the inputs used in measuring fair value. These tiers include Level 1, defined as quoted market prices in active markets for identical assets or liabilities; Level 2, defined as inputs other than quoted market prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs, therefore requiring an entity to develop its own assumptions. The asset's or liability's fair value measurement within the hierarchy is based on techniques that maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

**Receivables and Credit Policies:** Receivables are uncollateralized obligations which generally are due upon receipt. Accounts receivable are stated at the invoice amount. Account balances with invoices over thirty days old are considered delinquent. Payments of accounts receivable are applied to the specific invoices identified on the customers' remittance advice or, if unspecified, to the earliest unpaid invoices.

The carrying amount of accounts receivable is reduced by a valuation allowance that reflects management's best estimate of amounts that will not be collected. The allowance for doubtful accounts is based on management's assessment of the collectability of specific student accounts and the aging of accounts receivable. All accounts or portions thereof deemed to be uncollectible are written off to the allowance for doubtful accounts.

## Note 1 – Summary of Significant Accounting Policies (continued)

Prepaid Expenses: Prepaid balances are for payments made by the College for which benefits extend beyond June 30.

Inventories: The College does not maintain a significant amount of inventory and does not record inventory in its financial records.

Capital Assets: Capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are valued at their estimated acquisition value at the time of donation.

The costs of maintenance and repairs are charged to operations as incurred. Equipment assets having a cost of \$5,000 or more per unit and building or remodeling projects of \$15,000 or more are capitalized. Depreciation on buildings and equipment is provided in amounts sufficient to relate the cost of the depreciable assets to operations on the straight-line basis over the estimated service lives, which range from 3 to 15 years for equipment, 20 years for site improvements, 20 years for remodeling, 40 years for buildings and infrastructures.

Property Taxes and Taxes Receivable: The District Board, under Section 38.16 of the Wisconsin Statutes, may levy a tax not to exceed the prior year's levy by the College's valuation factor, which is equal to the percentage change in the College's equalized value from the prior year due to net new construction for the purposes of operating and maintaining schools. The mill rate limitation is not applicable to taxes levied for the purposes of paying principal and interest on general obligation debt issued by the College that is used for capital improvements and equipment acquisitions.

The College communicates its property tax levy to city, village and town treasurers or clerks in October of the fiscal year for which the taxes are levied. The following dates are pertinent to the College's tax calendar:

Levy date	October 31, or within 10 days of receipt of equalized valuation, whichever is later
Tax bills are mailed	Month of December
Lien date	January 1
Payments:	
Taxes paid in one installment	January 31
Taxes paid in two installments	January 31
First installment due	January 31
Second installment due	July 31
Delinquent taxes purchased by Counties	October 1

The College's property tax is apportioned each fall, based on the equalized value as established by the Wisconsin Department of Revenue, to the municipalities located within the District. The College records its share of the property tax in the year it is levied.

The combined tax rate for the fiscal years ended June 30, 2025 and 2024, are as follows:

	2025		2024	
	Mill Rate	Levy	Mill Rate	Levy
		Amount		Amount
Operating levy	0.34272	\$ 7,785,970	0.35005	\$ 7,632,820
Debt service levy	0.41487	<u>9,425,000</u>	0.43224	<u>9,425,000</u>
Total property tax levy		<u>\$ 17,210,970</u>		<u>\$ 17,057,820</u>

## Note 1 – Summary of Significant Accounting Policies (continued)

In 2013 the Wisconsin Act 145 provided a ‘dollar for dollar’ reduction in the operational property tax levy and increase in state aid funding, effective for the year ending June 30, 2015. State property tax relief aid was \$10,835,014 and \$10,835,014 for the years ended June 30, 2025 and 2024, respectively.

Deferred Outflows/Inflows of Resources – In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense) until that time. At this time, the College has only three items that qualify for reporting in this category. The deferred outflows of resources – actuarial represent the College’s proportionate share of collective deferred outflows of resources of the Wisconsin Retirement System (WRS) and the Local Retiree Life Insurance Fund (LRLIF) and the deferred outflows of the College’s OPEB plan. The deferred outflows of resources – contributions represent the College’s contributions to pension and OPEB plans subsequent to the measurement date of the collective net pension and OPEB liability (asset).

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents the acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The deferred inflows of resources – actuarial represent the College’s proportionate share of collective deferred inflows of resources of the WRS and LRLIF and the deferred inflows of resources of the College’s OPEB plan.

Compensated Absences, Vacation – College employees are granted vacation in varying amounts in accordance with the provisions of the employee handbook and College policy. Vacation earned is forfeited if not taken within the allowable time period. The expense for vacation pay is recorded on the accrual basis. The value of vested vacation pay including payroll taxes and retirement costs was approximately \$294,000 and \$289,000 as of June 30, 2025 and 2024, respectively.

Compensated Absences, Sick Time – College employees are granted sick time in varying amounts in accordance with the provisions of the employee handbook and College policy. Sick time can be accrued up to 1,120 hours per employee but is forfeited when the employee leaves the College.

The College used a four-year look-back period to estimate the amount of sick leave that has been earned, used and forfeited to determine the estimated liability for sick leave. The value of the estimated sick leave liability, including payroll taxes and retirement costs, was \$579,406 and \$606,720 as of June 30, 2025 and 2024, respectively.

Amounts have been recorded consistent with the compensated absences reporting standards of GASB Statement No. 101, Compensated Absences, including an accrual for accumulated sick leave and vacation in the year-ended compensated absences liability.

GASB 87 Lease Accounting – The College is a lessee in two noncancelable lease agreements. If the contract provides the College the right to substantially all the economic benefits and the right to direct the use of the identified asset, it is considered to be a lease. Right-of-use (ROU) assets and lease liabilities are recognized at the lease commencement date based on the present value of future lease payments over the expected lease term. The ROU asset is also adjusted for any lease prepayments made, lease incentives received, and initial direct costs incurred. The ROU assets for the leases are amortized on a straight-line basis over the life of the related lease.

The discount used is the implicit rate in the lease contract, if it is readily determinable, or the College’s incremental borrowing rate. The College’s incremental borrowing rate for a lease is the rate of interest it would have to pay on a collateralized basis to borrow an amount equal to the lease payments under similar terms and in a similar economic environment.

## **Note 1 – Summary of Significant Accounting Policies (continued)**

Subscription Based Information Technology Arrangements – The College is a party to multiple noncancelable subscription-based information technology arrangements (SBITAs). If the contract provides the College the right to use the present service capacity and the right to direct the use of the identified asset, it is considered to be or contain a SBITA. Subscription-based assets and liabilities are recognized at the agreement commencement date based on the present value of the future payments over the expected contract term. The SBITA asset is also adjusted for any prepayments made and capitalizable initial implementation costs as incurred.

The SBITA liability is initially and subsequently recognized based on the present value of its future payments. Variable payments are included in the present value when the underlying rate or index is fixed and predictable for the life of the lease. Variable costs that depend on an unpredictable index are accounted for as expenses as they are incurred. Increases (decreases) to variable payments due to subsequent changes in an index or rate are recorded as an adjustment to expense in the period in which they are incurred.

The discount rate used is the implicit rate in the SBITA contract, if it is readily determinable, or the College's incremental borrowing rate. The College does not recognize SBITA assets and liabilities for short-term agreements that have a contract term of 12 months or less at contract commencement. Contracts containing termination clauses in which either party may terminate without cause and the notice period is less than 12 months are deemed short-term agreements with costs included in expense.

Retirement Plan - The College has a retirement plan covering substantially all of its employees, which is funded through contributions to the Wisconsin Retirement System (WRS).

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the WRS and additions to/deductions from WRS' fiduciary net position have been determined on the same basis as they are reported by the WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. See Note 7 for further information on retirement plans.

Cost-Sharing OPEB Plan – The College participates in a life insurance OPEB plan that covers WRS-eligible employees. The fiduciary net position of the LRLIF has been determined using the flow of economic resources measurement focus and the accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources, and deferred inflows of resources related to other postemployment benefits, OPEB expense, and information about the fiduciary net position of the LRLIF and additions to/deductions from LRLIFs fiduciary net position have been determined on the same basis as they are reported by LRLIF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Post-Employment Health, Dental and Life Insurance – The College administers a single-employer defined benefit plan that provides OPEB benefits to eligible retirees as established by College policy. The College Board manages the OPEB plan and has appointed the Directors of Finance and Human Resources of the College as trustees.

Tuition and Fees: Tuition and fees are recorded, net of scholarships, as revenue in the period in which the related activity or instruction takes place. Tuition and fees attributable to summer school programs are prorated on the basis of student class days occurring before and after the fiscal year-end.

State and Federal Revenues: The College receives funding from various federal and state contracts and grants. Some of these revenues are earned over fiscal periods different from the College and are subject to the Uniform Guidance and State Single Audit Guidelines.

State general aids are recognized as revenue in the entitlement year. Federal and state aids for reimbursable programs are recognized as revenue in the year the related program expenditures are incurred. Aids received prior to meeting revenue recognition criteria are recorded as unearned revenues.

## **Note 1 – Summary of Significant Accounting Policies (continued)**

Scholarship Allowances and Student Aid: Financial aid to students is reported in the basic financial statements under the alternative method, as prescribed by the National Association of College and University Business Officers (NACUBO). Certain aid (loans, funds provided to students as awarded by third parties and Federal Direct Lending) is accounted for as third-party payments (credited to the student's account as if the student made the payment). All other aid is reflected in the basic financial statements as operating expenses or scholarship allowances, which reduce revenues. The amount reported as operating expenses represents the portion of aid that was provided to the student in the form of cash. Scholarship allowances represent the portion of aid provided to the student in the form of reduced tuition. Under the alternative method, these amounts are computed on a total College basis by allocating the cash payments to students, excluding payments for services, on the ratio of all aid to the aid not considered to be third-party aid.

Net Position: Net position is classified according to restrictions or availability of assets for satisfaction of College obligations. Net investment in capital assets, represents the net value of capital assets (property, plant and equipment) less the debt incurred to acquire or construct the assets and the borrowed resources not yet expended, but restricted for capital purchases. Restricted net position for debt service can only be used to repay debt service costs (principal and interest) as they are levied for that specific purpose. Restricted net position for student financial assistance can only be used for student financial assistance activities. All remaining net position is unrestricted for legal purposes, but may be designated for specific purposes.

## **Note 2 - Cash, Cash Equivalents, and Investments**

Cash, cash equivalents, and investments are classified in the College's Statements of Net Position and Statements of Cash flows as follows:

The College is authorized by Wisconsin Statute 66.0603 to invest in the following instruments:

- Obligations of the U.S. Treasury and U.S. Agencies.
- Obligations of any Wisconsin county, city, drainage district, technical college district, village, town, or school district.
- Time deposits in any bank, trust company, or savings and loan association that is authorized to transact business in this state, if the time deposits mature in not more than three years.
- The state's local government pooled investment fund.
- Any security maturing in seven years or less with either the highest or second rating category of a nationally recognized rating agency.
- Repurchase agreements with public depositories, if the agreement is secured by federal bonds or securities.
- Securities of open-end management investment companies or investment trusts, if the portfolio is limited to obligations of the U.S. Treasury and U.S. Agencies.
- Bonds issued by a local exposition district.
- Bonds issued by a local professional baseball park district.
- Bonds issued by the University of Wisconsin Hospitals and Clinics Authority.

## **Note 2 - Cash, Cash Equivalents, and Investments (continued)**

The College maintains a policy over the OPEB Trust Fund with the following investment objectives:

- To invest assets of the Trust in a manner consistent with its fiduciary responsibility to (a) all transactions undertaken must be for the sole interest of Trust beneficiaries and defray reasonable expenses in a prudent manner, and (b) assets are to be diversified in order to minimize the impact of large losses from individual investments.
- To provide for funding and anticipated withdrawals on a continuing basis for payment of OPEB benefits and related expenses.
- To conserve and enhance the value of Trust assets in real terms through asset appreciation and income generation, while maintaining a moderate investment risk profile.
- To minimize principal fluctuations over a 20 year investment horizon.
- To achieve a long-term level of return commensurate with contemporary economic conditions and equal to or exceeding the Trust's actuarial discount rate.

The Wisconsin Local Government Investment Pool (LGIP) has compiled fair value information for all securities in the pool and has provided a book value to fair value conversion factor. As of June 30, 2025 and 2024, the conversion factors were 100%.

The LGIP is part of the State Investment Fund (SIF), and is managed by the State of Wisconsin Investment Board (SWIB). The SIF is not registered with the Securities and Exchange Commission, but operates under the statutory authority of Wisconsin Chapter 25. The SIF reports the fair value of its underlying assets annually. Participants in the LGIP have the right to withdraw their funds in total on one day's notice.

Investments in the LGIP are covered by a surety bond issued by Financial Security Assurance, Inc. The bond insures against loss arising from principal defaults on substantially all types of securities acquired by the pool except U.S. Government and agency securities. The bond provides unlimited coverage on principal losses, reduced by any Federal Deposit Insurance Corporation (FDIC) and State of Wisconsin Guarantee Fund insurance. The College is exposed to market risk through its participation in the LGIP.

**Custodial Credit Risk - Deposits:** Custodial credit risk is the risk that, in the event of financial institution failure, the College will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of a third party. As of June 30, 2025 and 2024, the College's carrying value of the deposits was \$2,595,356 and \$2,823,873, respectively, compared to bank balances of \$3,316,075 and \$3,349,127, respectively. No bank balances at June 30, 2025 or 2024, were uninsured and uncollateralized.

**Credit Risk - Investments:** Credit risk is the risk an issuer or other counterparty to an investment will not fulfill its obligations. State law limits investments as listed above. The College minimizes its credit risk by requiring security of the investment as the first priority and limiting investments to financial institutions and the LGIP. The College's repurchase agreements are collateralized by U.S. Government securities which are uninsured and unregistered, held by the counterparty or its trust department, but not in the College's name. As of June 30, 2025 and 2024, the College had \$21,614,590 and \$24,401,880, respectively, invested in the LGIP, which does not carry a credit quality rating.

The US Bank Money Market held by the Blackhawk Technical College Post-Employment Trust is rated AAA by Standard & Poors and the mutual funds do not carry a credit quality rating.

**Concentration of Credit Risk:** Concentration of credit risk is the risk of loss attributed to the magnitude of an organization's investment in a single issuer. Any investment which represents 5 percent or more of total investments is required to be disclosed. Exempt from this disclosure are investments issued or explicitly guaranteed by the U.S. government, investments in mutual funds, external investments pools, and other pooled investments. The College places no limit on the amount the College may invest in any one issuer.

## Note 2 - Cash, Cash Equivalents, and Investments (continued)

**Interest Rate Risk:** Interest rate risk is the risk changes in interest rates will adversely affect the fair value of an investment. The College does not have a formal investment policy which limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

## Note 3 – Fair Value Measurements (Assets and Liabilities Measured at Fair Value)

The College has the following recurring fair value measurements as of June 30, 2025 and 2024:

### Assets at Fair Value as of June 30, 2025

	Level 1	Level 2	Total
Certificates of deposit (CD's)	\$ -	\$ 38,280	\$ 38,280
Mutual funds	12,324,093	-	12,324,093
<b>Total cash and investments</b>	<b>\$ 12,324,093</b>	<b>\$ 38,280</b>	<b>\$ 12,362,373</b>

### Assets at Fair Value as of June 30, 2024

	Level 1	Level 2	Total
Certificates of deposit (CD's)	\$ -	\$ 35,951	\$ 35,951
Mutual funds	11,355,437	-	11,355,437
<b>Total cash and investments</b>	<b>\$ 11,355,437</b>	<b>\$ 35,951</b>	<b>\$ 11,391,388</b>

The College's assets at fair value are measured as follows:

- Mutual funds are valued using unadjusted quoted active market prices as of the date of the financial statements (Level 1 inputs).
- Certificates of deposit are valued using a matrix pricing model (Level 2 inputs).

## Note 4 – Accounts and Other Receivables

Accounts and other receivables consisted of the following on June 30:

	2025	2024
Student tuition and fees, net of allowance for doubtful accounts	\$ 778,824	\$ 789,631
Contracted services	121,156	105,357
Other	306,282	77,458
<b>Total accounts and other receivables</b>	<b>\$ 1,206,262</b>	<b>\$ 972,446</b>

## Note 5 – Capital Assets

	<u>\$ 61,645,000</u>	<u>\$ 10,135,781</u>	<u>\$ 71,780,781</u>

Wisconsin Statutes 67.03(1) provides the aggregate amount of indebtedness of a district shall not exceed 5 percent of the value of the taxable property located in the district. The 5 percent limit at June 30, 2025 and 2024, was \$1,182,417,061 and \$1,130,301,898, respectively. The actual indebtedness of the College for 2025 and 2024 was \$61,645,000 and \$62,700,000, respectively. The indebtedness of the College, net of resources available for 2025 and 2024 was \$59,354,465 and \$60,413,802, respectively. In addition, the maximum bonded indebtedness of the College for purchasing and constructing buildings and equipment may not exceed 2 percent of the value of the taxable property within the District. The 2 percent limit at June 30, 2025 and 2024, was \$472,966,824 and \$452,120,759, respectively. The College had no bonded indebtedness for 2025 and 2024.

## Note 7 - Retirement Plans

Plan Description: All eligible College employees participate in the WRS, a cost-sharing multiple-employer defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government, and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011, expected to work at least 1,200 hours a year (880) hours for teachers and school district educational support employees) and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS.

ETF issues a standalone Annual Comprehensive Financial Report (ACFR), which can be found at <https://etf.wi.gov/about-etf/reports-and-studies/financial-reports-and-statements>.

Additionally, ETF issued a standalone Wisconsin Retirement System Financial Report, which can also be found using the link above.

Vesting: For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998, and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011, must have five years of creditable service to be vested.

## Note 7 - Retirement Plans (continued)

Benefits Provided: Employees who retire at or after age 65 (54 for protective occupations and 62 for elected officials and executive service retirement plan participants, if hired on or before 12/31/2016) are entitled to a retirement benefit based on a formula factor, their final average earnings, and creditable service.

Final average earnings is the average of the participant's three highest annual earnings periods. Creditable service includes current service and prior service for which a participant received earnings and made contributions as required. Creditable service also includes creditable military service. The retirement benefit will be calculated as a money purchase benefit based on the employee's contributions plus matching employer's contributions, with interest, if that benefit is higher than the formula benefit.

Vested participants may retire at or after age 55 (50 for protective occupations) and receive an actuarially reduced benefit. Participants terminating covered employment prior to eligibility for an annuity may either receive employee-required contributions plus interest as a separation benefit or leave contributions on deposit and defer application until eligible to receive a retirement benefit.

The WRS also provides death and disability benefits for employees.

Post-Retirement Adjustments: The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the "floor") set at retirement. The Core and Variable annuity adjustments granted during recent years are as follows:

Year	Core Fund Adjustment %	Variable Fund Adjustment %
2015	2.9	2.0
2016	0.5	(5.0)
2017	2.0	4.0
2018	2.4	17.0
2019	0.0	(10.0)
2020	1.7	21.0
2021	5.1	13.0
2022	7.4	15.0
2023	1.6	(21.0)
2024	3.6	15.0

Contributions: Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for general category employees, including teachers, and executives and elected officials. Starting on January 1, 2016, the executive and elected officials category was merged into the general employee category. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

During the reporting period, the WRS recognized \$1,148,173 in contributions from the College.

## Note 7 - Retirement Plans (continued)

Contribution rates as of June 30, 2025 and 2024 are:

<b>Employee Category</b>	<b>2025</b>		<b>2024</b>

### Pension Liabilities (Assets), Pension Expense (Revenue), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2025 and 2024, the College reported liabilities of \$1,347,059 and \$1,268,717 for its proportionate share of the net pension liability (asset). The net pension liability (asset) was measured as of December 31 within the College's fiscal year, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation one year prior to and rolled forward to the measurement date. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The College's proportion of the net pension liability (asset) was based on the College's share of contributions to the pension plan relative to the contributions of all participating employers. At December 31, 2024 and 2023, the College's proportion was 0.082% and 0.085% (a decrease of 0.003% from the prior year).

For the year ended June 30, 2025 and 2024, the College recognized pension expense of \$1,838,245 and \$893,436.

At June 30, 2025 and 2024, the College reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<b>2025</b>		<b>2024</b>	
	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>

## Note 7 - Retirement Plans (continued)

Deferred outflows related to pension resulting from the WRS Employer's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability (asset) in the subsequent year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense (revenue) as follows:

<b>Year ended June 30:</b>	<b>Net Deferred Outflows (Inflows) of Resources</b>
2026	\$844,631
2027	2,815,081
2028	(681,490)

Post-retirement Adjustments*	1.7%	1.7%

\* No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 1.7% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate. Includes the impact of known Market Recognition Account deferred gains/losses on the liability for dividend payments.

Actuarial assumptions are based upon an experience study conducted in 2024 that covered a three-year period from January 1, 2021 to December 31, 2023. Based on this experience study, actuarial assumptions used to measure the total pension liability changed from prior year, including seniority (merit) and separation rates. The total pension liability for December 31, 2024 and 2023, is based upon a roll-forward of the liability calculated from the December 31, 2023. and 2022, actuarial valuations.

## Note 7 - Retirement Plans (continued)

Long-term expected Return on Plan Assets: The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following tables:

**Single Discount Rate:** A single discount rate of 6.8% was used to measure the total pension liability for the current and prior year. The single discount rate is based on the expected rate of return on pension plan investments of 6.8% and a municipal bond rate of 4.08%. (Source: "20-Bond GO Index" is the Bond Buyer Index, general obligation, 20 years to maturity, mixed quality as of December 31, 2024. In describing this index, the Bond Buyer notes that the bonds' average quality is roughly equivalent to Moody's Investors Service's Aa2 rating and Standard and Poor's Corp.'s AA.). Because of the unique structure of WRS, the 6.8% expected rate of return implies that a dividend of approximately 1.7% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the municipal bond rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

## Note 7 - Retirement Plans (continued)

Sensitivity of the College's proportionate share of the net pension liability (asset) to changes in the discount rate: The following presents the College's proportionate share of the net pension liability (asset) calculated using the discount rate of 6.80 percent (6.80 percent for the prior year), as well as what the College's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (5.80 percent) or 1-percentage-point higher (7.80 percent) than the current rate:

	2025		2024	
	Discount Rate	Net Pension Liability (Asset)	Discount Rate	Net Pension Liability (Asset)

1% increase to discount rate	7.8%	(6,674,243)	7.8%	(6,424,282)

Detailed information about the pension plan's fiduciary net position is available in separately issued financial statements available at <https://etf.wi.gov/about-etf/reports-and-studies/financial-reports-and-statements>

Payables to the pension plan: The College reported a payable to the pension plan for the outstanding amount of required contributions of \$266,912 at June 30, 2025 and \$255,355 at June 30, 2024.

## Note 8 – Other Post-Employment Benefits – Retiree Medical

As of the June 30 actuarial valuation, members of the plan consisted of the following:

	2025	2024
Inactive plan members or beneficiaries currently receiving benefit payments	30	28
Inactive plan members entitled but not yet receiving benefit payments	-	-
Active plan members	139	177
<b>Total participants</b>	<b>169</b>	<b>205</b>

The College provides post-retirement health care, dental and life insurance benefits to certain teachers, support staff and administrators under contractual arrangements hired prior to June 30, 2023. The plan is closed to new entrants. Retirees must be 55 years old and have completed 12, 15, or 18 years of service to receive three, four or five years of paid health insurance, respectively. Health care benefits are coordinated with Medicare after age 65. Dental coverage is available only to College Presidents. The cost method used in estimating the Actuarially Determined Contribution was the Projected Unit Credit (ADC), Entry Age Normal (NOL) Cost Method. The significant assumptions used in the computation include a 7.0% discount rate, a health insurance premium rate trend of 9% in year 1 and declining to 5% in year 11 and remaining at that level thereafter for those under age 65, and a health insurance premium rate of 5.0% for those over age 65.

The College established a trust (Blackhawk Technical College Post-Employment Benefits Trust) for the purpose of funding the Other Post-Employment Benefits (OPEB) liability on November 21, 2007. The plan's financial statements are prepared on the accrual basis of accounting. The College Board determines the amount contributed to the trust. Benefits are paid at the time premiums are due to the insurance carrier. Investments are reported at fair value. The plan does not issue a standalone report.

## Note 8 – Other Post-Employment Benefits – Retiree Medical (continued)

The OPEB plan investment policies are described in Notes 1 and 2. For June 30, 2025 and 2024, the annual money-weighted rate of return on OPEB plan investments, net of OPEB plan investment expense, was 11.66% and 12.69%, respectively. The money-weighted rate of return expresses the investment performance, net of investment expense, adjusted for the changing amounts invested.

The components of the net OPEB liability (asset) of the College at June 30, is as follows:

	<b>2025</b>	<b>2024</b>
<b>Total OPEB liability</b>	\$ 6,949,849	\$ 4,500,483
Plan fiduciary net position	<u>12,536,266</u>	<u>11,524,102</u>
<b>Net OPEB liability (asset)</b>	<b><u>\$ (5,586,417)</u></b>	<b><u>\$ (7,023,619)</u></b>
<b>Plan fiduciary net position as a percentage of the total OPEB liability</b>	<b><u>180.38%</u></b>	<b><u>256.06%</u></b>

The net OPEB liability (asset) was measured as of June 30, 2025 and 2024 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2025 and 2024.

The long term expected rate of return on OPEB plan investments was 7.0%. The rate was determined based on a review of the current portfolio and the long-term expectation that amounts will be invested in a higher interest rate environment.

Mortality rates were based on the Pub-2010 Teachers Data Set Mortality and then projected forward using MP-2021 generational future mortality improvement scale. Separate tables for each participant type.

**Healthcare Cost Trend Rates:** As of June 30, 2025, pre-65 medical costs were trended at 8% in the first year, graded down to 5% over 11 years, post-65 medical costs were trended at 7% in the first year, graded down to 5% over 11 years. As of June 30, 2024, pre-65 medical costs were trended at 9.0% in the first year, graded down to 5.0% over 11 years; post-65 medical costs were trended at a flat 5.0% per year.

The Discount Rate used to measure the Total OPEB Liability was 7.00%. Because the Plan's Fiduciary Net Position is projected to be available to make all projected OPEB payments for current active and inactive employees, the plan's long-term investment rate of return was applied to all periods.

## Note 9 – Other Post-Employment Benefits – Local Retiree Life Insurance Fund

**Plan Description:** The Local Retiree Life Insurance Fund (LRLIF) is a multiple-employer, defined benefit OPEB plan. LRLIF benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. The Wisconsin Department of Employee Trust Funds (ETF) and the Group Insurance Board have statutory authority for program administration and oversight. The plan provides post-employment life insurance benefits for all eligible members.

**OPEB Plan Fiduciary Net Position:** ETF issues a standalone Annual Comprehensive Financial Report (ACFR), which can be found at <https://etf.wi.gov/about-etf/reports-and-studies/financial-reports-and-statements>

Additionally, EFT issued a standalone Retiree Life Insurance Financial Report, which can also be found using the link above.

**Benefits Provided:** The LRLIF plan provides fully paid up life insurance benefits for post-age 64 retired employees and pre-65 retirees who pay for their coverage.

**Contributions:** The Group Insurance Board approves contribution rates annually, based on recommendations from the insurance carrier. Recommended rates are based on an annual valuation, taking into consideration an estimate of the present value of future benefits and the present value of future contributions. A portion of employer contributions made during a member's working lifetime funds a post-retirement benefit.

## Note 9 – Other Post-Employment Benefits – Local Retiree Life Insurance Fund (continued)

Employers are required to pay the following contributions based on employee contributions for active members to provide them with Basic Coverage after age 65. There are no employer contributions required for pre-age 65 annuitant coverage. If a member retires prior to age 65, they must continue paying the employee premiums until age 65 in order to be eligible for the benefit after age 65.

Contribution rates as of June 30, 2025 and 2024 are:

Coverage Type	Employer Contribution
25% Post Retirement Coverage	20% of employee contribution

Employee contributions are based upon nine age bands through age 69 and an additional eight age bands for those age 70 and over. Participating employees must pay monthly contribution rates per \$1,000 of coverage until the age of 65 (age 70 if active). The employee contribution rates in effect for the year ended December 31, 2024 and 2023 are as listed below:

Life Insurance Employee Contribution Rates* For the years ended December 31, 2024 and 2023		
Attained Age	Basic	Supplemental
Under 30	\$0.05	\$0.05
30-34	0.06	0.06
35-39	0.07	0.07

65-69	0.57	0.57

\*Disabled members under age 70 receive a waiver-of-premium benefit.

During the reporting period, the LRLIF recognized \$7,781 in contributions from the College.

### OPEB Liabilities, OPEB Expense (Revenue), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

At June 30, 2025 and 2024, the College reported a liability of \$1,447,228 and \$1,624,530 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of December 31, 2024, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of January 1, 2024 rolled forward to December 31, 2024. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The College's proportion of the net OPEB liability was based on the College's share of contributions to the OPEB plan relative to the contributions of all participating employers. At December 31, 2024 and 2023, the College's proportion was 0.370% and 0.353%, (an increase of 0.02% from the prior year).

For the years ended June 30, 2025 and 2024, the College recognized OPEB expense of \$67,028 and \$97,571.

### Note 9 – Other Post-Employment Benefits – Local Retiree Life Insurance Fund (continued)

At June 30, 2025 and 2024, the College reported deferred outflows of resources and deferred inflows of resources related to OPEBs from the following sources:

	2025		2024	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$0	\$150,561	\$0	\$143,776
Changes in assumptions	355,111	811,718	508,167	639,705
Net differences between projected and actual earnings on pension plan investments	19,874	0	21,946	0
Changes in proportion and differences between employer contributions and proportionate share of contributions	140,259	71,145	80,184	108,631
Employer contributions subsequent to the measurement date	3,844	0	3,822	0
<b>Total</b>	<b>\$519,088</b>	<b>\$1,033,424</b>	<b>\$614,119</b>	<b>\$892,112</b>

Deferred outflows related to OPEB resulting from the LRLIF Employer's contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the subsequent year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense (revenue) as follows:

Year ended June 30:	Net Deferred Outflows (Inflows) of Resources
2026	\$(49,930)
2027	(110,579)
2028	(148,704)
2029	(139,298)
2030	(31,151)
Thereafter	(38,520)

## Note 9 – Other Post-Employment Benefits – Local Retiree Life Insurance Fund (continued)

Actuarial assumptions: The total OPEB liability in the January 1, 2024 and 2023, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	2025	2024
Actuarial Valuation Date:	January 1, 2024	January 1, 2023
Measurement Date of Net OPEB Liability	December 31, 2024	December 31, 2023
Experience Study:	January 1, 2021 – December 31, 2023 published November 19, 2024	January 1, 2018 – December 31, 2020 published November 19, 2021
Actuarial Cost Method:	Entry Age Normal	Entry Age Normal
20 Year Tax-Exempt Municipal Bond Yield*:	4.08%	3.26%
Long-Term Expected Rate of Return:	4.25%	4.25%
Discount Rate:	4.09%	3.32%
Salary Increases:		
Inflation	3.0%	3.0%
Seniority/Merit	0.1% - 5.7%	0.1% - 5.6%
Mortality:	2020 WRS Experience Mortality Table	2020 WRS Experience Mortality Table

\*Based on the Bond Buyer GO 20-Bond Municipal Index.

Actuarial assumptions are based upon an experience study conducted in 2024 that covered a three-year period from January 1, 2021 to December 31, 2023. The total OPEB liability for December 31, 2024 is based upon a roll-forward of the liability calculated from the January 1, 2024 actuarial valuation.

Long-term expected Return on Plan Assets: The long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation. Investments for the LRLIF are held with Securian, the insurance carrier. Interest is calculated and credited to the LRLIF based on the rate of return for a segment of the insurance carriers' general fund, specifically 10-year A- Bonds (as a proxy, and not tied to any specific investments). The overall aggregate interest rate is calculated using a tiered approach based on the year the funds were originally invested and the rate of return for that year. Investment interest is credited based on the aggregate rate of return and assets are not adjusted to fair market value. Furthermore, the insurance carrier guarantees the principal amounts of the reserves, including all interest previously credited thereto.

### Asset Allocation Targets and Expected Returns

**Note 9 – Other Post-Employment Benefits – Local Retiree Life Insurance Fund (continued)**

**Asset Allocation Targets and Expected Returns**  
As of December 31, 2023

<b>Asset Class</b>	<b>Index</b>	<b>Target Allocation</b>	<b>Long-Term Expected Geometric Real Rate of Return %</b>
US Intermediate Credit Bonds	Bloomberg US Interim Credit	40.0%	2.32%
US Mortgages	Bloomberg US MBS	60.0%	2.52%
<b>Inflation</b>			2.30%
<b>Long-Term Expected Rate of Return</b>			4.25%

**Single Discount Rate:** A single discount rate of 4.09% was used to measure the total OPEB liability for the current year, as opposed to a discount rate of 3.32% for the prior year. The change in the discount rate was primarily caused by the decrease in the municipal bond rate from 3.26% as of December 31, 2023 to 4.08% as of December 31, 2024. The Plan's fiduciary net position was projected to be insufficient to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total OPEB liability is equal to the single equivalent rate that results in the same actuarial present value as the long-term expected rate of return applied to benefit payments, to the extent that the plan's fiduciary net position is projected to be sufficient to make projected benefit payments, and the municipal bond rate applied to benefit payment to the extent that the plan's fiduciary net position is projected to be insufficient. The plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through December 31, 2037.

The projection of cash flows used to determine the single discount rate assumed that employer contributions will be made according to the current employer contribution schedule and that contributions are made by plan members prior to age 65.

**Sensitivity of the College's proportionate share of the net OPEB liability to changes in the discount rate:** The following presents the College's proportionate share of the net OPEB liability calculated using the discount rate of 4.09% (3.32% for the prior year), as well as what the College's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	<b>2025</b>	<b>2024</b>		
	<b>Discount Rate</b>	<b>Net OPEB Liability</b>	<b>Discount Rate</b>	<b>Net OPEB Liability</b>
1% decrease to discount rate	3.09%	\$1,934,420	2.32%	\$2,182,779
Current discount rate	4.09%	1,447,226	3.32%	1,624,530
1% increase to discount rate	5.09%	1,071,799	4.32%	1,198,401

**Payables to the OPEB plan:** There were no outstanding required contributions at June 30, 2025 and 2024.

## **Note 10 - Expenses Classification**

Expenses on the Statement of Revenues, Expenses and Changes in Net Position are classified by function. Alternatively, the expenses could also be shown by type of expense, as follows for the year ended June 30:

Total operating expenses	<u>\$ 46,621,476</u>	<u>\$ 41,304,272</u>

## **Note 11 - Commitments and Contingencies**

The College receives regular program aids from the WTCS Board based on aidable expenditures. This amount is subject to adjustment based on a state audit of the full-time equivalent students and cost allocation reports of the College and other districts of the state. The audit for the year ended June 30, 2025, has not been completed. It is the belief of management of the College audit adjustments, if any, will not materially affect the College's financial position.

As of June 30, 2025, the College had approximately \$1,435,395 (including retainage) in project commitments related to projects-in-progress at year-end.

In July and September, the College signed contracts in the amount of \$2,573,757 for project commitments.

## **Note 12 – Leases**

The College entered into a lease with the City of Beloit on March 2, 2020 with occupancy beginning on August 1, 2020, for 3,500 sq. ft. of space within the Beloit Public Library located at 605 Eclipse Blvd, Beloit, Wisconsin 53511. The term of the lease was for five years with the option to extend for three additional period of five years each upon the same terms and conditions. The original term was expected to expire on July 31, 2025, however, the lease ended by mutual agreement on June 30, 2025.

The total amount of the right of use asset, net of amortization on this lease is \$0 and \$27,895 at June 30, 2025 and 2024 respectively. Principal and interest payments were calculated monthly using a fixed rate of 3% over the life of the lease and a straight-line amortization schedule. Lease liability amounts as of June 30, 2025 and 2024 were \$0 and \$31,939, respectively.

### Note 13 – Subscription-Based Information Technology Arrangements (SBITAs)

The College entered into multiple subscription-based information technology arrangements (SBITAs) with different vendors for a variety of software during the years ended June 30, 2025 and 2024. As of June 30, 2025 and 2024, the net SBITA right-to-use intangible assets were reported in the amount of \$2,606,754 and \$3,058,565, respectively. These SBITA right-to-use intangible assets are discounted at a rate of 3%. For the years ended June 30, 2025 and 2024, the College reported a corresponding SBITA liability in the amount of \$2,656,803 and \$3,026,543, respectively. For the year ended June 30, 2025 there was an overall principal reduction of \$369,740 as compared to an increase of \$438,149 as of June 30, 2024.

Total future minimum SBITA payments as of June 30, are estimated as follows:

Year	Principal	Interest	Total
2026	\$ 1,045,807	\$ 75,285	\$ 1,121,092
2027	1,082,682	43,635	1,126,317

### Note 14 - Insurance

Districts Mutual Insurance: In July 2004, all sixteen WTCS technical colleges created Districts Mutual Insurance Company (DMI). DMI is a fully assessable mutual company authorized under Wisconsin Statute Chapter 611 to provide property, casualty, and liability insurance and risk management services to its members. The scope of insurance protection provided by DMI is broad, covering property at \$500,225,000 per occurrence; general liability, auto, and educators' legal liability at \$5,000,000 per occurrence; and workers' compensation at the statutorily required limits.

At this time, settled claims have not approached the coverage limits as identified above. The College's exposure in its layer of insurance is limited to \$5,000 to \$100,000 per occurrence depending on the type of coverage, and DMI purchases reinsurance for losses in excess of its retained layer of coverage.

DMI operations are governed by a five-member board of directors. Member colleges do not exercise any control over the activities of DMI beyond election of the board of directors at the annual meeting. The board has the authority to adopt its own budget, set policy matters, and control the financial affairs of the Company.

At the start of operations, each member college was assessed a charge for a capitalization component to establish reserves for the Company. For the years ended June 30, 2025 and 2024, the College paid premiums of approximately \$275,451 and \$256,422, respectively, to DMI. Future premiums will be based on relevant rating exposure bases as well as the historical loss experience by members. DMI's ongoing operational expenses, other than loss adjustment expenses, are apportioned pro rata to each participant based on equity interest in the Company. The audited DMI financial statements can be obtained through Districts Mutual Insurance Co., 212 West Pinehurst Trail, Dakota Dunes, SD 57049.

Supplemental Insurance: In July 1997, the WTCS technical colleges formed the WTCS Insurance Trust to jointly purchase commercial insurance to provide coverage for losses from theft of, damages to, or destruction of assets. The trust is organized under Wisconsin Statutes 66.0301 and is governed by a board of trustees consisting of one trustee from each member college. Member entities include all sixteen WTCS districts.

#### **Note 14 – Insurance (continued)**

The WTCS Insurance Trust has purchased the following levels of coverage from DMI for its participating members:

- *Liability*: \$5,000,000 aggregate general; \$1,000,000 auto per accident; \$1,000,000 employee benefits; includes benefit for accidental death and dismemberment, repatriation, and medical expenses; \$1,000 deductible for employee benefits.
- *Crime*: \$750,000 coverage for employee dishonesty, forgery, computer fraud and funds transfer fraud; \$750,000 coverage for theft, robbery, burglary, disappearance and destruction of money and securities; \$25,000 coverage for investigation expenses; \$2,500 deductible for investigation, \$15,000 deductible for employee dishonesty, forgery and fraud.

The Trust financial statements can be obtained through Lakeshore Technical College District, 1290 North Avenue, Cleveland, WI 53015.

#### **Note 15 – Transactions with Component Unit**

The College paid Foundation expense of approximately \$67,899 and \$67,281 for the years ended June 30, 2025 and 2024, respectively. These expenses covered the costs of salaries, benefits, office space, computer usage, and office supplies.

The College also received donated equipment in the amounts of \$18,361 and \$75,096 from the Foundation for the years ended June 30, 2025 and 2024, respectively. In addition, the Foundation disbursed scholarships and awards of \$239,115 and \$219,477 on behalf of the College during the fiscal years ended June 30, 2025 and 2024, respectively.

#### **Note 16 - Component Unit**

This report contains the Blackhawk Technical College Foundation, Inc., which is included as a component unit. Financial information is presented as a discrete column in the statement of net position, the statement of revenues, expenses and changes in net position and the statement of cash flows.

In addition to the basic financial statements, the following disclosures are considered necessary for a fair presentation.

**Cash and Investments**: The Foundation considers all cash and investments with an original maturity of three months or less to be cash equivalents.

Investment securities are carried at market value.

## Note 16 - Component Unit (continued)

Cash and investments at June 30, 2025 and 2024 are as follows:

Investment income reported in the statement of revenues, expenses and changes in net position totaled \$499,684 and \$421,750 respectively for the years ended June 30, 2025 and 2024 and consisted of the following:

	2025	2024
Interest and dividends	\$ 254,069	\$ 185,482
Net realized gains/(losses)	62,812	20,120
Net unrealized gains/(losses)	210,687	238,400
Investment fees	(27,884)	(22,252)
<b>Total</b>	<b>\$ 499,684</b>	<b>\$ 421,750</b>

**Contributions:** Contributions, including unconditional promises to give, are recorded as made. All contributions are available for unrestricted use unless specifically restricted by the donor. Conditional promises to give are recognized when the conditions on which they depend are substantially met. As of June 30, the Foundation recorded the following unconditional promises:

	2025	2024
Restricted for student support	\$ 125,453	\$ 284,188
Without donor restriction	86,932	108,276

<b>Total</b>	<b>\$ 197,107</b>	<b>\$ 372,479</b>

## **Note 16 - Component Unit (continued)**

Note Receivable: In May 2023, the Foundation sold its Advanced Manufacturing Training Center (AMTC) property for \$9,909,412.

In June 2024, the Foundation consented to accept the full outstanding payment in fiscal year 2025, thereby classifying the entire note receivable balance of \$728,277 as a current note receivable as of June 30, 2024.

Net Position: Temporarily restricted net assets included assets set aside in accordance with donor restrictions as to time or use. Temporarily restricted net assets are available for future payment of scholarships, grants, and educational programming opportunities for students and staff.

Permanently restricted net assets have been restricted by donors to be maintained in perpetuity, the income of which is expendable to support scholarship programs of the Foundation.

Net position classified at June 30 are as follows:

	<b>2025</b>	<b>2024</b>
Restricted	\$ 5,924,007	\$ 5,498,824
Unrestricted	2,729,637	2,574,894
	<hr/> <u>\$ 8,653,644</u>	<hr/> <u>\$ 8,073,718</u>

Related Party Transactions: The Foundation received donated services from the College for salaries, benefits, office space, and computer usage. The value of these donated services was \$67,899 and \$67,281, respectively for the years ended June 30, 2025 and 2024. The Foundation also transferred donated equipment to the College in the amounts of \$18,361 and \$75,096, respectively for the years ended June 30, 2025 and 2024.

## **Note 17 - Subsequent Events**

On August 4, 2025, the College issued general obligation promissory notes in the amount of \$3,800,000. The proceeds are to be used for costs related to building remodeling and improvement projects, and for the acquisition of movable equipment. The interest rate is 4.00% with the first principal payment due April 1, 2027.

On October 8, 2025, the College issued general obligation promissory notes in the amount of \$1,500,000. The proceeds are to be used for costs related to building remodeling and improvement projects. The interest rate is 4.00% with the first principal payment due April 1, 2026.

In July and September 2025, the College signed contracts in the amount of \$2,573,757 for project commitments.

### **Note 18 – Accounting Changes and Error Corrections**

As a result of implementing GASB Statement No. 101, Compensated Absences, beginning net position was restated as follows:

Valuation Date: Actuarially determined contribution rates are calculated as of June 30 in the year prior to the end of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial Cost Method:	Projected Unit Credit, Entry Age Normal
Amortization Method:	Level Dollar, Open
Amortization Period:	30 years
Asset Valuation Method:	Fair Market Value
Healthcare Cost Trend Rates:	Pre-65 medical costs were trended at 9.0% in the first year, graded down to 5.0% over 11 years; post-65 medical costs were trended at a flat 5.0% per year.
Investment Rate of Return:	7.0% per annum
Participation Rate:	100% of eligible employees are assumed to be covered in the plan at retirement.
Mortality:	Pub-2010 Teachers Data Set Mortality and then projected forward using MP-2021 generational future mortality improvement scale.

#### Note 1

Changes of benefit terms: There were no changes of benefit terms for any participating employer in WRS.

Changes of assumptions:

Based on a three-year experience study conducted in 2021 covering January 1, 2018 through December 31, 2020, the ETF Board adopted assumption changes that were used to measure the total pension liability beginning with the year-end December 31, 2021, including the following:

- Lowering the long-term expected rate of return from 7.0% to 6.8%
- Lowering the discount rate from 7.0% to 6.8%
- Lowering the price inflation rate from 2.5% to 2.4%
- Lowering the post-retirement adjustments from 1.9% to 1.7%
- Mortality assumptions were changed to reflect updated trends by transitioning from the Wisconsin 2018 Mortality Table to the 2020 WRS Experience Mortality Table.

See Independent Auditor's Report.

Changes of benefit terms: There were no recent changes of benefit terms.

Changes of assumptions: In addition to the rate changes detailed in the tables above, the State of Wisconsin Employee Trust Fund Board adopted economic and demographic assumption changes based on a three-year experience study performed for the Wisconsin Retirement System. These assumptions are used in the actuarial valuations of OPEB liabilities (assets) for the retiree life insurance programs and are summarized below.

The assumption changes that were used to measure the December 31, 2021 total OPEB liabilities, including the following:

- Lowering the price inflation rate from 2.5% to 2.4%
- Mortality assumptions were changed to reflect updated trends by transitioning from the Wisconsin 2018 Mortality Table to the 2020 WRS Experience Mortality Table.

The assumption changes that were used to measure the December 31, 2018 total OPEB liabilities, including the following:

- Lowering the long-term expected rate of return from 5.00% to 4.25%
- Lowering the wage inflation rate from 3.2% to 3.0%
- Lowering the price inflation rate from 2.7% to 2.5%
- Mortality assumptions were changed to reflect updated trends by transitioning from the Wisconsin 2012 Mortality Table to the Wisconsin 2018 Mortality Table.

**Independent Auditor's Report on Internal Control Over  
Financial Reporting and on Compliance and Other Matters Based  
on an Audit of Financial Statements Performed in Accordance with  
*Government Auditing Standards***

District Board  
Blackhawk Technical College District  
Janesville, Wisconsin

We have audited, in accordance with the auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities, the discretely presented component unit, and the aggregate remaining fund information of Blackhawk Technical College District (the "College"), as of and for the years ended June 30, 2025 and 2024, and the related notes to the financial statements, which collectively comprise the College's basic financial statements, and have issued our report thereon dated December 22, 2025. The financial statements of the Blackhawk Technical College Foundation, Inc. (the "Foundation"), a discretely presented component unit, were not audited in accordance with *Government Auditing Standards*, and accordingly, this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance associated with the Foundation.

**Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the College's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we do not express an opinion on the effectiveness of the College's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements, on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Wipfli LLP and Wipfli Advisory LLC (and its respective subsidiary entities) practice in an alternative practice structure in accordance with the AICPA Code of Professional Conduct and applicable law, regulations, and professional standards. Wipfli LLP is a licensed independent CPA firm that provides attest services to its clients, and Wipfli Advisory LLC provides tax and business consulting services to its clients. Wipfli Advisory LLC and its subsidiary entities are not licensed CPA firms.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the College's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance, and the results of that testing, and not to provide an opinion on the effectiveness of the College's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

### Notes:

- (a) Overlapping rates are those of local and county governments that apply to property owners within the District. Not all overlapping rates apply to all property owners within the District. For example, the county rate is made up of the rates for most of Rock and Green Counties. The individual county rates apply only to the property owners within each of those counties. These overlapping tax rates are an average of the rates for each municipality making up the detail in this column since each government can have a different rate.
- (b) The operational property tax levies for all funds except the Debt Service Fund. This rate may not exceed \$1.50 per s.38.16 of Wisconsin State Statutes. 2013 WI Statute 145 provided a 'dollar for dollar' reduction in the operational property tax levy and increase in state aid funding, effective in FY 2014-15.
- (c) Cities, towns, villages and other special taxing districts (e.g. water districts, utility districts).

### Notes:

- (a) Under Wisconsin law, personal property taxes and certain installment real estate taxes are collected by city, village, and town treasurers or clerks, who then settle with other taxing units, such as counties, technical colleges and local school districts. Settlements are due from the municipality by the 15th of the month following the due date based on the municipality's payment plan. Certain installment real estate taxes and delinquent taxes are collected by the county treasurers, who then settle with the city, village, and town treasurers and other taxing units before retaining any for county purposes. In practice, any delinquent real estate taxes are withheld from the county's share. Therefore, the District receives 100% of its levy upon receipt of settlement from the county treasurers, although the taxes collected as a percentage of total tax levy will vary in any given fiscal year due to timing of payments received from municipalities.
- (b) Full levy is typically collected in mid-August. For 2025, \$17,210,970 or 100% was collected by the end of August 2025.

(1) Students served represents the unduplicated count of citizens enrolled in BTC courses.

(2) A full-time equivalent is basically equal to 30 annual student credits based on a mathematical calculation, which varies somewhat by program and which is subject to state approval and audit of student data.

(3) Survey is conducted approximately six months after graduation, therefore, 2021 statistics are not available.

(4) Community Service classes are non-credit hobby-type classes

(5) For purposes of this calculation, expenditures are based upon the budgetary expenditures from the districts' General and Special Revenue-Aidable funds as reported to the Wisconsin Technical College System.

#### Notes:

Overlapping debt are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the District. This process recognized, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply every taxpayer is a resident and therefore responsible for repaying the debt of each overlapping government.

The percentage of overlapping debt applicable to the District is the equalized property value of the overlapping government located within the District's boundaries as a percentage of total equalized value of all property for the overlapping government.
